

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in Java, SQL, Selenium, REST APIs and application support within Agile environments. Skilled in automation testing, API validation, regression testing and backend development. Exposure to Identity and Access Management (IAM) concepts, authentication workflows and enterprise support operations in large-scale application projects.

TECHNICAL SKILLS

Languages	: Java, SQL, C	Databases	: MySQL
Automation Testing	: Selenium WebDriver, Cucumber (BDD), Functional Testing, Regression Testing, API Testing	Concepts	: IAM Basics, Authentication & Authorization, Role Based Access Control, User Access Validation, Agile Methodology
Frameworks & Tools	: Spring Boot, REST APIs, Postman, Git, IntelliJ, React, Microservices	Others	: JIRA, Defect Tracking, Test Case Design, Status Reporting

EXPERIENCE

Programmer Analyst Trainee July 2025 – Present
Cognizant Technology Solutions, Chennai

- Working on Elsevier's ScienceDirect research publishing platform and contributing to development, automation testing and support activities for SCT (Smart Collection Tool) application.
- Developing and enhancing application features using **Java, SQL, REST APIs** and enterprise technologies.
- Designing and executing automation test scenarios using **Selenium WebDriver** and **Cucumber (BDD)** for functional, regression and hot-fix testing.
- Performing API and backend validation using **SQL** queries and **Postman** to ensure data integrity and system reliability.
- Supporting defect analysis, issue resolution and user support requests in Agile environment.
- Exposure to IAM concepts including user access validation, authentication workflows, role-based access and access provisioning in enterprise applications.
- Contributing to test execution reporting and maintaining daily/weekly status updates for test progress and defects.

Java Full Stack Intern Mar 2025 – June 2025
Cognizant Technology Solutions, Chennai

- Developed a **Library Management System** using Java, Spring Boot, React, SQL and Microservices architecture.
- Designed and implemented RESTful APIs for book management, member management and issue/return operations.
- Performed API testing using Postman and validation of backend data using SQL.
- Participated in debugging, testing and optimization of backend services and UI components.

PROJECT

Banking Management System

- Developed a Banking Management System using Core Java and SQL to manage customer accounts and banking transactions.
- Implemented secure authentication, account management, deposits, withdrawals, balance inquiry and transaction history with proper validation and exception handling.
- Performed backend testing and SQL validation to ensure data consistency and application reliability.

CERTIFICATIONS

- AWS Certified AI Practitioner
- GitHub Foundations (GH-900)

EDUCATION

C V Raman Global University, Bhubaneswar 2021 – 2025
Bachelor of Technology in Information Technology | CGPA: 8.25/10

Sri Guru Nanak Public School, Ramgarh 2019 – 2020
Higher Secondary (CBSE) | Percentage: 93.8%
