OBJECTIVE

Software Developer with expertise in **Java, SQL, and Full-stack development**. Skilled in building scalable applications, debugging, and delivering efficient solutions..

EDUCATION

C V Raman Global University

Bachelor Of Technology in Information Technology

Nov 2021- July 2025

Bhubhaneswar, Odisha

Sri Guru Nanak Public School

Higher Secondary (CBSE)

May 2019- May 2020

Ramgarh, Jharkhand

TECHNICAL SKILLS

Languages

Java, C, SQL

Frameworks/Tools

Spring Boot, Rest Api, React, Git, Microservices, Postman, IntelliJ, Docker

EXPERIENCE

Programmer Analyst Trainee

Cognizant Technology Solutions

July 2025 - Present

Chennai

- Working on Elsevier research publishing platform focusing on authentication and authorization .
- Contributing to secure backend development, testing, and code reviews in an Agile environment.
- Contributing to backend development using Java and Spring Boot following secure coding practices.

Java Full Stack Intern

Cognizant Technology Solutions

Mar 2025 - June 2025

Chennai

- Developed a Library Management System as part of internship work.Implemented backend services using Java and Spring Boot following a microservices architecture.
- Designed RESTful APIs for book management, member management, issue/return operations, and fine calculation.
- Implemented Spring Security (Authentication, Authorization, RBAC) with a React frontend.Used Docker for containerization and performed testing and optimization.

PROJECTS

Library Management System - Developed a full-stack Library Management System using Java, Spring Boot, Microservices, REST APIs, SQL, React, Spring Security, and Docker. The system supports secure authentication and role-based access control, along with core features like book management, member management, issue/return operations, and fine calculation.

Banking Management System - Designed and implemented a Java-based Banking Management System using Core Java and SQL. The application handles essential banking operations such as account creation, deposits, withdrawals, balance inquiry, and transaction history with proper data validation and error handling.

EXTRA-CURRICULAR ACTIVITIES

- Completed multiple technical certifications, including GitHub Foundations (GH-900) .
- Actively practice coding and problem-solving through academic and self-learning projects.
